The use of TalkTalk products is subject to the general terms and conditions and the associated fair use policy. The inclusive units apply per month and are covered by monthly subscription fees. Connections abroad and roaming use outside of the inclusive units are billed according to the rate list. When the inclusive units of national data volumes are used up, mobile data is blocked if there is no active Data Booster. The Data Booster packages are valid for the current invoice period. Unused inclusive units cannot be transferred to the following month. However, foreign packages for use in roaming areas are valid for one year. Unused data volumes expire after one year. Valid for countries in the respective zone.

Unless expressly stated, calls to the Talkbox, roaming and landline network text messages are excluded from the inclusive units. If the 5G rate supports use in Switzerland, they need a 5G-enabled device. Registration for Option Globe is made by text message. Send **START GLOBE** to **361**. The option is valid for the current month and is automatically extended. You can find all the rates for Option Globe at www.talktalk.ch. To stop the option, send **STOP GLOBE** to **361**.

Mobile phone financing: Payment by instalments refers to the purchase item. The monthly instalments will be charged on the TalkTalk invoice for the mobile phone contract. The customer is entitled to repay any outstanding instalments at once at any time. The instalment payment agreement is contingent on an existing mobile phone contract. Terminating the mobile phone contract or changing the contract holder causes this instalment payment agreement to be automatically terminated. In such a case, all outstanding instalments shall fall due immediately. The device is the property of the customer. Theft and the transfer of possession or ownership of the mobile phone device shall not release the customer from the obligation to fulfil this contract or from paying the instalments. TalkTalk AG reserves the right to refuse applications and carry out a credit check. Billing of the monthly instalments starts once the device has been received. In principle, there is no right to return the device. Manufacturer's warranty in accordance with the conditions of the respective manufacturer.
